

ASHFAK NASAR

MERN Stack Developer

ashfaknasar7878@gmail.com | +91-8078566945 | Kasaragod, Kerala | [linkedin.com/in/ashfak-nasar](https://www.linkedin.com/in/ashfak-nasar)

PROFILE

Results-driven MERN Stack Developer and recent BCA graduate with hands-on internship experience building scalable, full-stack web applications using MongoDB, Express.js, React.js, and Node.js. Adept at designing RESTful APIs, implementing CRUD operations, developing responsive mobile-first UIs, and managing seamless frontend-backend integration. Proficient in JavaScript (ES6+), Git, Bootstrap, and modern web development workflows. Strong communicator and collaborative team player with a passion for writing clean, maintainable, and efficient code.

EXPERIENCE

MERN Full Stack Developer Intern – Techolas Technologies

July 2025 – Present

Calicut, Kerala

- Developed and deployed full-stack MERN applications using MongoDB, Express.js, React.js, and Node.js, following MVC architecture and component-based design principles for scalable, maintainable output.
- Built responsive, mobile-first UIs using React.js, HTML5, CSS3, Bootstrap, and JavaScript (ES6+), ensuring consistent cross-browser and cross-device compatibility across all screen sizes.
- Designed, built, and tested RESTful APIs for CRUD operations and data handling, enabling efficient and reliable communication between frontend and backend layers.
- Used Git and GitHub for version control, branching, pull requests, and collaborative code reviews, maintaining a structured and professional development workflow throughout each project.
- Debugged and optimised application performance through DOM manipulation, component refactoring, and modular code design, reducing duplication and improving overall code maintainability.

SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap, SASS, Responsive Design, DOM Manipulation

Backend: Node.js, Express.js, RESTful APIs, CRUD Operations, MVC Architecture, Authentication

Database: MongoDB, Mongoose ODM

Tools: Git, GitHub, Postman (API Testing), Debugging, VS Code, npm

Soft Skills: Communication • Problem-solving & Time Management • Team Collaboration & Leadership • Event Coordination

PROJECTS

COCO CART – E-Commerce Web Application

- Developed a fully responsive e-commerce website from scratch using HTML5, CSS3, and JavaScript, featuring dynamic product listings, a shopping cart system, and a streamlined checkout interface.
- Implemented interactive UI components including real-time cart updates, product filtering, and image galleries through DOM manipulation, delivering a smooth and engaging user experience.
- Ensured consistent cross-device compatibility by applying responsive layout techniques including Flexbox and media queries, tested manually across multiple browsers and screen sizes.

VYAPARIFY – Business Web Application

- Built a React.js-based business management web application using component-based architecture and modular design patterns, significantly improving code scalability and long-term maintainability.
- Integrated RESTful APIs for core business operations including product management, inventory tracking, and data dashboards, using custom hooks and clean separation of concerns throughout.
- Followed agile-style development practices by structuring the application into independently testable modules, enabling faster iteration and straightforward feature additions over time.

EDUCATION

Bachelor of Computer Application (BCA) – Srinivas University, Mangalore

2022 – 2025
